There are 784 words in the dataset.

A word cloud visualization of JavaScript-related terms, primarily focusing on web development concepts like routing, state management, and browser APIs. The words are arranged in a dense, overlapping manner, with colors ranging from light blue to dark purple. The most prominent words include:

- router**: The largest and most central word.
- static**: A large word positioned below "router".
- state**: A large word positioned to the right of "static".
- link**: A large word positioned at the bottom left.
- fetcher**: A large word positioned at the bottom right.
- history**: A medium-sized word at the top center.
- view**: A medium-sized word at the top right.
- transition**: A medium-sized word at the top right, near "view".
- memory**: A small word at the top right.
- class**: A small word at the top right.
- window**: A small word at the top right.
- submit**: A small word at the top right.
- children**: A small word at the top right.
- provider**: A small word at the top right.
- baseName**: A small word at the top right.
- browser**: A small word at the top right.
- scroll**: A small word at the top right.
- start**: A small word at the top right.
- storage**: A small word at the top right.
- params**: A small word at the top right.
- resolve**: A small word at the top right.
- back**: A small word at the top right.
- positions**: A small word at the top right.
- gesture**: A small word at the top right.
- press**: A small word at the top right.
- impl**: A small word at the top right.
- href**: A small word at the top right.
- server**: A small word at the top right.
- pathName**: A small word at the top right.
- future**: A small word at the top right.
- fallback**: A small word at the top right.
- enc**: A small word at the top right.
- prevent**: A small word at the top right.
- safe**: A small word at the top right.
- deep**: A small word at the top right.
- resolved**: A small word at the top right.
- button**: A small word at the top right.
- navigator**: A small word at the top right.
- status**: A small word at the top right.
- reset**: A small word at the top right.
- responder**: A small word at the top right.
- error**: A small word at the top right.
- replace**: A small word at the top right.
- parse**: A small word at the top right.
- matches**: A small word at the top right.
- location**: A small word at the top right.
- response**: A small word at the top right.
- relative**: A small word at the top right.
- update**: A small word at the top right.
- render**: A small word at the top right.
- hydrate**: A small word at the top right.
- info**: A small word at the top right.
- action**: A small word at the top right.
- serialize**: A small word at the top right.
- restoration**: A small word at the top right.
- scroll**: A small word at the top right.
- sync**: A small word at the top right.
- navigate**: A small word at the top right.
- entry**: A small word at the top right.
- native**: A small word at the top right.
- function**: A small word at the top right.
- key**: A small word at the top right.
- deferred**: A small word at the top right.
- nav**: A small word at the top right.
- link**: A small word at the top right.
- param**: A small word at the top right.
- hide**: A small word at the top right.
- react**: A small word at the top right.
- strategy**: A small word at the top right.
- hydration**: A small word at the top right.
- properties**: A small word at the top right.
- navigation**: A small word at the top right.
- str**: A small word at the top right.
- submission**: A small word at the top right.
- scheme**: A small word at the top right.
- boundary**: A small word at the top right.
- default**: A small word at the top right.
- skips**: A small word at the top right.
- blocker**: A small word at the top right.
- element**: A small word at the top right.
- map**: A small word at the top right.
- join**: A small word at the top right.
- invariant**: A small word at the top right.
- process**: A small word at the top right.
- linking**: A small word at the top right.
- component**: A small word at the top right.
- side**: A small word at the top right.
- click**: A small word at the top right.
- url**: A small word at the top right.
- convert**: A small word at the top right.
- unstable**: A small word at the top right.
- case**: A small word at the top right.
- trim**: A small word at the top right.
- strip**: A small word at the top right.
- page**: A small word at the top right.
- client**: A small word at the top right.
- search**: A small word at the top right.
- unique**: A small word at the top right.
- reject**: A small word at the top right.
- match**: A small word at the top right.
- path**: A small word at the top right.
- escape**: A small word at the top right.
- pair**: A small word at the top right.
- constructor**: A small word at the top right.
- flush**: A small word at the top right.
- options**: A small word at the top right.
- nonce**: A small word at the top right.
- end**: A small word at the top right.
- ready**: A small word at the top right.
- static**: A small word at the top right.
- dereSerialize**: A small word at the top right.
- deserialize**: A small word at the top right.
- initial**: A small word at the top right.
- unload**: A small word at the top right.
- console**: A small word at the top right.
- encode**: A small word at the top right.
- strip**: A small word at the top right.
- validate**: A small word at the top right.
- dom**: A small word at the top right.
- submitter**: A small word at the top right.
- warning**: A small word at the top right.
- hardware**: A small word at the top right.
- submit**: A small word at the top right.
- children**: A small word at the top right.
- style**: A small word at the top right.
- cb**: A small word at the top right.
